क्रांतिदूत- The Literati Kranti by Dr. Manish Shrivastava

Reading History or historical events has always been too boring for us.

But say – No More- When we have authors telling history in such an interesting way that you not just get hooked to read more but also remember all details – characters, places, dates, incidents! To make the pages of history alive in front of your eyes just like you are part of it!

Welcome to the world of "Jhansi Files" – "Krantidoot" – क्रांतिदूत

Krantidoot is a super interesting book written by Dr. Manish Shrivastva as first part of series containing total 12 books. The entire "Jhansi Files" Series is dedicated to unsung worriers and forgotten freedom fighters. Dr. Manish Shrivastva is the author who has strong flair in writing stories that touches hearts and stays in souls forever. Author is super amazing in developing strong characters and making readers feel instant connection with characters.

Krantidoot – will take you back to India's freedom struggle and make those warriors alive in your subconscious mind. The first part of the "Jhansi Files" will introduce you with Sutradhar-Shri Rudra Narayanji (Masterji), Azad, Ashfak, Bismil, Sukhdev, Rajguru, Bhagvati, Mahour, Sadashiv, Vishvanath- and make you travel through Kakori incident to start with. The characters and incidents will grow intense with pace and you will be able to feel their passion and emotions through words and narration of author. Not just the main characters but also the supporting characters grow strong with the story flow and we can feel their contribution to India's freedom struggle. Munnidevi and her devotion-love-commitment, RamKrushna and his Bhakti-Loyalty, Malkhan singh and his good governance in small village- every character has strong part and emotions. Apart from characters even the background plays major role in story- from Ram mandir- the Arati and Shree Ram Dhun to Zansi ki Rani LakshmiBai whose ऋण is referred for Jhansi and natives multiple times. Small details, major significance.

The author has successfully made the story alive and made readers curious about coming parts.

This entire series is strongly recommended to read by all age groups- specially school-college kids- who are fed wrong narrative about India's Freedom Fight and non-violence movements.

I strongly recommend this book to all age readers and also request to gift it to friends, family members- to pay out tribute to our forgotten freedom fighters.

The "Krantidoot" which is first part of 12 book's series has got tremendous response and love from readers and is already sold off! The second edition is in print by publishers and will be soon available.

Book Details:

Krantidoot (Part 1), Pages- 177, Fine quality pages with excellent publishing by Sarv Bhasha Trust, New Delhi.
